TECHNICAL PROFILE

- **Frontend**
Flutter, Next.js, Astro, React
- **Backend**
Express, SpringBoot, tRPC
- **Database**
Postgresql, Mongo DB, Redis
- **DevOps**
Docker, AWS, Github actions
- **Others**
Figma, Vercel, turborepo
- **Languages**
TypeScript, Dart, Java, JavaScript

EDUCATION

Baccalaureat Scientifique

College la conquête

2015-2021

I obtained my French high school diploma (baccalauréat D) with an average grade of 13.97.

No Degree

ucac-icam

2021-now

I aspire to become a competent devOps engineer at the end of this formation.

LANGUAGES

English B2 (TOEFL)

French Native language

PROFILE

I am a motivated student completing a computer engineering degree with a strong interest in DevOps engineering. I have experience in Agile and Scrum environments, and I am skilled in supporting team administrative, project coordination, design, and programming needs. I am also fluent in French and English.

In my school projects, I have built apps, optimized programs, and validated code. I am eager to learn more about DevOps engineering and to apply my skills to help teams deliver high-quality software quickly and reliably.

WORK EXPERIENCE

Software Developer Intern

GAUS

may 2023 - june 2023

- Learned software engineering process improvements and best practices.
- Developed mobile application project using Flutter for the frontend and Express.js for the backend.
- Analyzed source code to identify functionality issues.
- Tested new applications for usability and adherence to code plan.
- Supported development, QA and user experience staff to develop new products.
- Maintained strong knowledge of evolving technology trends.

PROJECTS

GAUS Market

Mobile app

may 2023 - june 2023

- Gaus Market combines stock management, accounting, and a marketplace for Cameroonian businesses. It simplifies operations and facilitates buying and selling between local businesses, leading to increased profitability.

skills: Flutter, Express, MongoDB, Render, Cloudinary

HogPrime

Web app

july 2023 - now

- HogPrime is a web app that helps Cameroonian pig farmers manage their farm operations, from pig health and nutrition to production and sales. With real-time tracking and analysis of data such as weight, growth, feed consumption, and disease, users can make informed decisions to improve their production and profitability.

skills: Next.js, tRPC, Prisma, Postgresql, Docker

HOBBIES

I like to spend my free time playing basket-ball, exploring new technologies, reading books about tech industry, and i'm interested in the world of accounting/finance, business lide, and exploring intersection of technology and business.
